EXAMINER'S AMENDMENT

Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Burton Amernick on August 3, 2006 and August 4, 2006.

The application has been amended as follows:

In the last line of claim 9, after "alloy" insert-
"formed by exposing to an oxidizing atmosphere, wherein said beryllium oxide layer forms a barrier layer in regions having been exposed to an oxidizing atmosphere to self encapsulate the silver beryllium alloy".

Cancel withdrawn claims 13-29.

Reasons For Allowance

2. The following is an examiner's statement of reasons for allowance: though the prior art teaches silver beryllium alloy can be used for electrical contacts, as well as beryllium oxide films are useful to improve corrosion resistance, the prior art does not teach or suggest the instant combination of the presently claimed Ag-Be alloy located in the recesses of a dielectric layer, and wherein a BeO layer of about 1-10 nm forms (in regions exposed to an oxidizing atm) as a barrier layer to self encapsulate the Ag-Be alloy, substantially as presently claimed.

Art Unit: 1742

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
